

“ More investments are needed for the Police modernization programme. Homeland security is one of the important areas for the nation’s economic development. If border management is proper, then only internal security is ensured. ”

Shri Rajnath Singh

Hon’ble Union Minister for Home Affairs, GoI
3rd June, 2016

**7th International
Conference &
Exhibition**

HOMELAND SECURITY

New Challenges & Technologies

11th OCTOBER, 2018 NEW DELHI

BACKGROUND

Governments and associated agencies have always faced challenges in ensuring safe and secure environment for its citizens and establishments. At every step, the agencies are faced with the gargantuan task of developing actionable insights from heaps of structured, unstructured data from internal and external sources. In addition to this, the multitude of homeland security solutions currently available in the market is creating a lot of confusion during procurement in the absence of a formal national security strategy.

The agencies face a dynamic and rapidly evolving environment that requires them to be equipped with the latest technological tools that allow them to collect, collate and analyze data from an extremely broad range of sources. In the foreseeable future too, the agencies will continuously be tasked with acquiring, identifying, integrating, analyzing and disseminating relevant information to ensure national security.

With the proliferation of technology in our lives, it is important that the Police remains technology savvy and updated. The ASSOCHAM, India's Apex Chamber for Commerce and Industry, representing more than 4,50,000 Corporate Members from across the country, was perhaps the first Chamber, post the 26/11 terrorist attack, to have invited the Hon'ble Minister for Home Affairs, Government of India to interact with the Industry and to extend all the necessary support for encouraging and strengthening the Homeland Security. Moving forward this year the **ASSOCHAM National Council on Homeland Security proposes to organize 7th International Conference and Exhibition on Homeland Security with the Theme: "Homeland Security: New Challenges & Technologies", on 11th October 2018 in Hotel The Imperial, Janpath, New Delhi from 09:00 am to 05:00 pm.** The previous ASSOCHAM Conferences cum Exhibitions have been Inaugurated by the Hon'ble Ministers and the Secretary, Ministry of Home Affairs, Government of India in the past.

Cutting edge security technologies and solutions would be displayed at the venue during these two days International Conference and Exhibition.
