2nd GLOBAL IP LEADERSHIP SUMMIT & AWARDS

Celebrating & Honouring IP Leaders of India

25th April 2024 | New Delhi

India has positioned as an Innovation leader with the surge in IP filings, outpacing the rest of the world. The surge in IP filings not only reflects India's commitment to fostering innovation but also highlights the country's ambition to become a key player in the global technology landscape. This development aligns with the overarching goal of "Atmanirbhar Bharat", where innovation and intellectual property are identified as catalysts for sustainable business growth.

ASSOCHAM National Intellectual Property Rights (IPR) Council has been working to promote culture of creativity & innovation in the country and initiated many recognitions over the years like IP Excellence Awards, IPTSE Awards, IPRISM Awards and ICT Startups Awards etc. We have also established IP facilitation centres to provide handholding services to the innovators in association with the Ministry of Micro, Small and Medium Enterprises (MSME), Government of India with the prime objective to boost Intellectual Property (IP) culture by guiding and assisting in identification, protection and management of Intellectual property Rights (IPRs).

Recognizing the significance of IP leadership and innovation, ASSOCHAM is organizing 2nd Global IP Leadership Summit and Awards on 25th April 2024 | New Delhi. This pioneering event aims to bring together distinguished IP leaders from India and abroad, providing a platform to exchange ideas, best practices, and strategies while honoring their invaluable contributions to the field of intellectual property.

The Global IP Leadership Summit and Awards represent a significant milestone in recognizing and celebrating the achievements of IP leaders while fostering collaboration, innovation, and excellence in the field of intellectual property. By bringing together stakeholders from India and abroad, the event aims to catalyze positive change, inspire action, and contribute to the advancement of IP leadership globally.

India to be among the Top-10 nations in Global Innovation Index soon: Justice Amit Bansal

Justice Amit Bansal, Chairman of the Intellectual Property Appellate Board (IPAB), said that India is on the verge of becoming a global innovation hub. He stated that the country's IP ecosystem is maturing rapidly, and the government's focus on intellectual property protection is a key factor in this growth. He also mentioned that India's IP system is being upgraded to meet international standards, which will further boost its global standing.

We are at the threshold of a very interesting, complex and difficult time, where we may not be able to believe evidence: Justice Anish Doyal

Justice Anish Doyal, Chairman of the Intellectual Property Appellate Board (IPAB), expressed his concerns about the challenges posed by artificial intelligence (AI) in the legal system. He noted that AI is creating a complex and difficult time for the courts, as they may not be able to believe evidence presented by AI-powered systems. He emphasized the need for the judiciary to adapt to these new challenges and ensure justice is served in a timely and fair manner.

Courts Facing 'Complex, Difficult' Time Due To AI: Delhi High Court Judge

Delhi High Court Justice Anish Doyal said the courts are facing a complex and difficult time with the advent of artificial intelligence (AI) as the judges may not be able to believe the evidence presented before them. He highlighted the challenges posed by AI-powered evidence and the need for the judiciary to adapt to these new challenges. He also mentioned that the courts are facing a complex and difficult time due to AI, and he expressed his concerns about the future of the legal system.

Courts facing complex time due to AI judges may not be able to believe evidence: Delhi HC judge
