

8th Edition

The TechMeet **& Technology Excellence Awards**

Focus: AI & Tech Innovations

Friday, 18th August 2023, Kolkata, India

Closing Date of Entry: 1st August 2023

150 Guests | 20 Speakers | 6 Cities

Technology is all around us and digitalization has been much faster than anticipated. From developments in critical infrastructure, energy, and live science innovation, India is leading the way for technological innovation. Digital Innovation is quickly infiltrating all aspects of our everyday lives. **Artificial Intelligence** and other futuristic technologies such as **Gene Technology**, **Extended Reality (XR)** along with **super-fast networks like 5G**, are leading innovation. **AI and ML are helping reduce data centres' carbon footprint**. With digital transformation across sectors gaining momentum, **the demand for data services is rising exponentially. This calls for bigger data centres**. According to Assocham-EY white paper, 'India smart datacentres & cloud infrastructure summit 2022', the Indian data centre market is currently worth US\$1.5 billion .

Considering the rising influence of technology on all sectors of businesses manufacturing or services, ASSOCHAM is organizing one day conference at Kolkata, India. Apart from industry and expert presence from India the program aims to invite Government and Industry representatives from neighbouring countries.

Topics of deliberations are

- AI, XR, Blockchain and beyond
- Quantum Technology
- Critical Infrastructure such as Data Centres for Tech Development
- Technology Innovations & International Collaborations
- Tech Solutions across segments
