

9th Homeland Security Summit & Expo

“Industry's Role in National Security-
Strategies for Viksit Bharat”

6th September 2024, Hotel Le-Meridien, New Delhi

THE ASSOCIATED CHAMBERS OF COMMERCE AND INDUSTRY OF INDIA

India, with its rich diversity in cultures, languages, religions, and ethnic groups, faces unique and complex security challenges. The country's vast coastline and extensive maritime borders further accentuate its security concerns, including insurgency movements, ethnic conflicts, and religious fundamentalism. Moreover, India's geo-climatic conditions make it susceptible to natural disasters like floods, droughts, cyclones, earthquakes, and landslides.

The government bears the crucial responsibility of ensuring law and order, protecting citizens, critical installations, border areas, industry, transport, and other infrastructure. As India progresses towards becoming a developed nation by 2047, equipping law enforcement agencies with the latest technological solutions is imperative. The private sector plays a pivotal role in supporting government agencies to safeguard our homeland through innovative strategies to combat both domestic and international threats.

Therefore, to discuss the emerging challenges, developments, and Strategies for Viksit Bharat in the homeland security sector, **ASSOCHAM is organizing 9th Homeland Security Summit & Expo with the theme: Industry's Role in National Security- Strategies for Viksit Bharat at 10:00 a.m. on 6th September 2024 at Hotel Le Meridien in New Delhi.** The Summit will have a large participation by stakeholders of various segments of the security industry to discuss and find holistic solutions through the private sector participation towards efficient management of homeland security.
