*Presents*

**Insurance for All by 2047**

6<sup>th</sup> edition of  
**Insurance Leaders Meet  
&  
Excellence Awards 2024**

17<sup>th</sup> August 2024, Kolkata

Closing Date for Nomination : 1<sup>st</sup> August 2024

The insurance industry in India has been growing significantly over the past few years and is expected to reach \$280 billion by 2025 with a CAGR of 12%-15%. The industry is looking forward to enhancing market penetration.

Considering the demographic and geographic diversity of India, the challenge of low protection gap cannot be viewed in isolation. The problem stems from challenges such as low awareness, limited understanding of products, complex processes, low affordability of products, lack of trust, delay in claim settlements and inadequate distribution channels. These challenges must be addressed efficiently.

**Insurance for All by 2047** aims that every citizen has an appropriate life, health and property insurance cover and every enterprise is supported by appropriate insurance solutions. It also aims to make Indian insurance sector globally attractive. To attain this objective, efforts are being made towards creating a progressive, supportive, facilitative and a forward-looking regulatory architecture to foster a conducive and competitive environment leading to wider choice, accessibility, and affordability to policyholders. Also to realise this vision, the IRDAI has taken commendable measures to increase awareness about insurance, and to make insurance affordable and accessible to the people of the country.

To streamlining the entire insurance value chain, from policy issuance to claim settlement, thereby promoting transparency and collaboration at every stage we are organizing **6<sup>th</sup> edition of Insurance Leaders Meet 2024** with the theme of **Insurance for All by 2047** at Kolkata on 17<sup>th</sup> August 2024 with focussed areas-

- Making available right products to right customers
- Creating robust grievance redressal mechanism
- Facilitating ease of doing business in the insurance sector
- Ensuring the regulatory architecture is aligned with the market dynamics.
- Boosting innovation
- Competition and distribution efficiencies while mainstreaming technology and moving towards principle based regulatory regime.
